Prof Rene van der HULST
Plastic Surgeon
The Netherlands

ORGANIZED IN COOPERATION WITH

This course is organized in collaboration with the Department of Anatomy, Embryology & Physiology, AMC (Amsterdam)

Russian State Research Medical University (RSRMU) Department of Plastic and Reconstructive Surgery, Cosmetology and Cellular Technologies of Pirogov

Prof. Dr. Natalia MANTUROVA, Plastic Surgeon (Russia)

EDUCATIONAL OBJECTIVES

- Internationally renowned clinical experts and anatomists will illustrate and teach the pertinent clinical facial anatomy with emphasis on safe and reproducible techniques for the use of injectable fillers and toxins.
- Delegates will be taken through a holistic and extensive insight into the essential anatomy of the human face for safe practice in aesthetic medicine.
- Delegates will get a comprehensive understanding of various anatomical layers and structures within fresh frozen cadaver facial tissue and how facial injections influence volume loss and aging.
- Delegates will get an insight into reading the surface anatomy and real-time application of facial injectables with an emphasis on patient safety and avoidance of structures in critical danger zones of the upper, middle and lower face.
- Delegates will closely work with the experts in employing (advanced) injectable techniques in patients with interactive discussion on the choice and combination of dermal fillers and toxins for each region.

SAFE® CONCEPT

This "Clinical Facial Anatomy: Dissection & Live Injection Course" is structured and organized based on the **SAFE® Concept (Scientific Anatomical Filler Education/Experience)**

The **SAFE® concept** is used to inform and educate our peers to improve safety and efficacy in cosmetic medicine and Aesthetic surgery.

SCIENTIFIC-BASED

The course content elucidates the science behind the materials/products used in daily practice, evidence-based information for efficacy, longevity and safety of fillers including bacteriology, antiseptics and biofilm.

ANATOMY ESSENTIALS

The anatomical layers are shown in a clear manner including marking and surface anatomy. These include the most clinically relevant SIX regions (forehead, temple, tear trough, cheek, lips & perioral, jawline & neck). The location of danger zones, nerves, arteries and important mimetic muscles and their possible variations are delineated. The synergy between volumisation, use of toxins and fillers will be emphasised.

FILLER

Updates on science of dermal fillers and other related techniques will be summarized in a clinically relevant manner ranging from the choice of filler for each area, how to differentiate between different HAs, combination with PRP, EBD (lasers), etc. Moreover, specific acute and late complications and treatment until dealing with previous "filled" zones will be also covered.

EDUCATION

The course covers basic, intermediate and advanced injection techniques on different areas and is tailored for the interests and needs of the delegates. A pre-course questionnaire will be sent to evaluate these requirements. Other aspects of treatment will be covered such as pain control and patient comfort and dealing with anxiety and difficult patients.

FRIDAY
27
OCTOBER

PROGRAMME

DAY 1

ANATOMY DISSECTION COURSE 1

VENUE 1

ANATOMY LAB (EXPERIMENTELE CHIRURGIE)
ACADEMIC MEDICAL CENTRE, IWO BUILDING
Meibergdreef 9 - 1105 AZ Amsterdam, The Netherlands

09:00 09:30	Refreshment & registration
09:30 10:30	Introduction & overview on key anatomy points for injectables (structured VDO demonstrations)
10:30 11:00	Break and preparation to move to the anatomy lab
11:00 11:45	Station 1
11:45 12:30	Station 2
12:30 14:00	Lunch onsite with instructors
14:00 14:45	Station 3
14:45 15:30	Station 4
15:30 16:00	Coffee break & discussion with instructors
16:00 16:45	Station 5
16:45 17:30	Station 6

The Anatomy sessions are organized in such a way that 4-5 delegates rotate to instruction stations with 2 instructors per station table with a fresh frozen head specimen.

A layered pre-dissection will be pre-prepared on one half of each cadaver head to facilitate teaching. The participants will objectively learn the essential anatomy relevant to each clinical situation. They will continue to dissect and inject dyed filler material on the other half of the face allowing an understanding of the filler characteristics and tissue interaction.

Each station represents anatomy demonstration of one of the six important anatomical facial regions. An emphasis will be put on an avoidance of complications around facial danger zones:
Where, What and How to inject?

The correct use and tissue injection of Hyalase will be demonstrated for the delegates to be optimally prepared for acute situations.

- Central Forehead: M. Frontalis variations: Corrugator complex, nerves & arteries.
- Temple Area: "GunShot" technique" for Temple enhancement; Lateral Brow lift.
- Tear trough: Deep or superficial injections and choice of filler.
- Nose: Medical rhinomodulation technique and avoidance of complication
- Cheeks: Superficial & deep fat pads and their relative volume shifts, cheek enhancement.
- Perioral region: Lip and philtrum enhancement, marionette lines, toxins around the mouth.
- Jawline: contouring for bone loss or masculinization.
- Neck & Decollete: The "washout" tightening technique

Social activity: Dinner*

*To be registered in addition. Please contact registration@euromedicom.com

SATURDAY
28
OCTOBER

OVERVIEW

DAY 2

SURFACE ANATOMY & CLINICAL LIVE DEMO'S

VENUE 2

BILDERBERG GARDEN HOTEL

Dijsselhofplantsoen 7

1077 BJ Amsterdam, The Netherlands

08:30 09:40	Overview of surface anatomy Summary on injectables Relevant clinical science / subject: biofilms, complications...
09:40 10:00	Coffee breaks
10:00 13:00	5 Live demonstrations on Full Face with focus on: Tear Trough, Medical Rhinoplasty, Neck Washout
13:00 14:00	Lunch onsite with instructors
14:00 14:50	Practical demonstration / experience Session 1
15:00 15:50	Practical demonstration / experience Session 2
15:50 16:10	Coffee breaks
16:10 17:00	Practical demonstration / experience Session 3
17:00 17:30	Analysis of cases / Q&A Conclusion of the day & Certificate awarding

Participants are assigned into groups of 4-5. The hands-on Live injections on « approximately 20 models » will be organized in different stations. Each station is led by 2 internationally reputed experts who will help the participants to translate the acquired knowledge on facial anatomy into surface anatomy and perform clinical treatments.

Direct observation and interactive discussion with the experts in small group during each session will allow the participants to better understand the treatment and techniques to be employed with a focus on:

- Dermal soft tissue fillers and muscle relaxing toxins as most important means of non-surgical facial rejuvenation.
- The state-of-the-art techniques to be used in each region.
- Live injections aim to cover important surface anatomy and delineate the exact depth and location for optimal aesthetic enhancement and rejuvenation.
- Injection under close supervision of the experts.

REGISTRATION CANCELLATION CONDITION & POLICY

Cancellation must be notified in writing by email uniquely to:
registration@euromedicom.com

- Until 30 days before the Event: 20% processing fees on the total registration
- Between 30 to 15 days before the Event: 50% cancellation fees on the amount paid
- From 15 days before the Event date or no show: No refund - except in case of "force majeure", conditions detailed below.

"FORCE MAJEURE"

Refunds may be granted by the organizer after evaluation if the participant is unable to attend the event due to a severe accident, close family (children, husband/spouse) illness, or family death.

You can also keep your registration for the next Course Edition.

In such circumstances, please contact Mrs Anais Cadin at
registration@euromedicom.com

In all cases, refunds will still be subject to a minimum 10% processing fee.

Cancellation will be processed after written demand and one month after the Course.

Please fill one form per registrant and send it (or copy) to: **EuroMediCom - 2, rue de Lisbonne - 75008 Paris - France**
Tel: + 33 (0)1 56 83 78 00 - Fax: +33 (0)1 56 837 805 - E-mail: registration@euromedicom.com

ON-LINE REGISTRATION: WWW.EUROMEDICOM.COM (Secured Payment)

Once your credit card debited we will destroy your payment details - Please do not send your registration scanned by email but only by fax.

TESTIMONIALS

“ This course brings so much value to my practice, in the end my patients benefit the most ”

Annushka REDDY, Aesthetic Practitioner, South Africa

“ Difficult to improve. Go on like this. Top faculty, good models on both days and very nice atmosphere. Best course ever for applied anatomy and a very nice atmosphere. ”

Gerda JAGER, Ophthalmologist, The Netherlands

“ I will be more daring in approaching area I would not doing usually, I am more confident now ”

Kevin MAHARIS, Aesthetic Practitioner, Indonesia

“ This course giving me confidence and enables me to improve my daily practice and patient satisfaction. I truly recommend this course to everyone who is practicing aesthetic medicine. ”

Pascal SCHOOFS, Aesthetic Practitioner, The Netherlands

“ Speakers really highlight the key issues, I am very happy to have flew to Amsterdam to participate in this course ”

Catharijne Barbara HERINGA, Aesthetic Practitioner, Switzerland

“ In the past, some doctors gave me too much 'duckface' and Dr Ali Pirayesh balanced my mouth and he did a very good job, actually it was painless! ”

Nicole, Patient, Amsterdam, The Netherlands

“ One of the most comprehensive teaching sessions I participated in. A course of highest quality, of greatest personal commitment of all, an utmost intense and relevant transfer of knowledge squeezed in into the most effective time frame, a distillate coming out from long-term experience from the medical and the organization team!! ”

Sabine ZENKER (Faculty), Dermatologist, Germany

“ Many thanks for the fantastic workshop! You know what, you should organize a similar event yearly for the same group of doctors. ”

François GODUE, Aesthetic Practitioner, Canada

“ I appreciate sincerely all the effort, the staff, the organization and I have learned so much. I went back to my country with self-confidence and updated skill. ”

Hassan salem TAHA, Dermatologist, Egypt

CFA Amsterdam, 10-11 October 2014

CFA Amsterdam, (Spring session) 8-9 May 2015

CFA Amsterdam, (Winter session) 27-28 November 2015

CFA Amsterdam, (Spring session) 13-14 May 2016

TESTIMONIALS

WHY SHOULD I CHOOSE THIS COURSE?

- ✓ Learn with over 10 core specialists (dermatology & plastic surgery), international experts in aesthetic medicine (injection techniques), who enjoy sharing their knowledge
- ✓ Clinically relevant anatomy and variations - A faculty of core plastic surgeons with special interest in facial surgery with vast experience in instruction of anatomy and or injection techniques
 - ◆ Fresh frozen cadaver specimens carefully selected for facial analysis & instruction purpose
 - ◆ Small group: 2 instructors and 4-5 participants per head specimen
 - ◆ Opportunity to inject real fillers and appreciate different rheology & dissect under supervision
 - ◆ Discover the danger zones and practice hyalase injection technique to be prepared for emergency situations
- ✓ Integration of relevant anatomy dissection for aesthetic medicine and live injections
 - ◆ Facial Analysis and Injection on more than 20 models
 - ◆ Where, What and How to Inject with safety
 - ◆ How to prevent and deal with complications in daily practice
 - ◆ Combination therapies with PRP and energy based devices: What, How and When
- ✓ Pre-course evaluation providing knowledge on participants' needs & background
- ✓ CFA friends - Facebook Group

“ Any physician who regularly injects faces, should attend this excellent quality course without hesitation! ”
Nasser MADI, MD, Switzerland

“ I am very happy that I had the opportunity to get to know the specialists I met at the CFA course in Amsterdam. The course was not just great - it was far more than I expected! It is for everyone who doubts in their work for a specific region and wants to improve their technique in general. I didn't meet just new colleagues at the CFA course - I met new friends. Thank you for the wonderful experience! ”
Damian ENCHEV, Aesthetic Practitioner, Bulgaria

“ Unique course and the Anatomy & Dissection part was excellent! You can see actual fat compartments and can follow the important vessel structures through the tissue layers with a possibility to see fillers being used aesthetically in all areas at the same time. ”
Wanda HARGREAVES, Dermatologist, UK

“ Incredible course for both the Anatomy Dissection and Live Injection! The course has given me more confidence to provide high quality treatment to my clients from simple to complex procedures. ”
Hugo Furstenburg HAGEN, Aesthetic Practitioner, UK

“ This course is very impressive, I don't think I need anything to add ”
Vipal ARORA, Aesthetic Practitioner, USA

“ This course is a must for aesthetic practitioners embarking on their careers. The course is unique with the presentation of live anatomy and it's variations by experienced practitioners. For more experienced practitioners; it provides review of essential anatomy and review of best injection practices with patients on day 2. Working next to world class injectors is invaluable! ”
Stewart ADAMS, Dermatologist, Canada

“ I find this course perfect for everyone who wants to achieve more experience during injection procedures ”
Boris HENRIQUEZ, Plastic & Aesthetic surgeon, Colombia

“ The course is comprehensive and follows the anatomical logic. The demonstrated techniques were safe and the aesthetic results were natural. It worths to participate. ”
Anastasiya MILANOVA, MD Dermatologist, Bulgaria

“ I just wanted to say what a pleasure it was to meet you and spend time with you in Amsterdam. I thought the course was great, well organised and had a lovely atmosphere which is unusual in these sorts of courses. ”
Kate GOLDIE (Faculty), Dermatologist, UK
