VISAGE

WELCOME MESSAGE

Dear Colleagues,

Following to the tremendous success of the 1st edition of "VISAGE" launched in 2016, we are very pleased to announce the VISAGE 2017 to take place as a joint meeting with AMEC 2017.

Organized in association with the School of Medicine & Institute of Face and Neck (University of Nice Sophia Antipolis, France), VISAGE offers a **unique model of a large scale European Academic event** dedicated to teaching and training in aesthetic medicine of the face.

Under the direction of Dr. Philippe Kestemont, Prof. Laurent Castillo, Prof. José Santini and Prof. Patrick Baqué, VISAGE introduces the latest and **most efficient techniques in facial aesthetics** through an extensive practical program & hands-on training.

VISAGE is a postgraduate training program in aesthetic medicine which combines workshops, anatomy laboratory sessions and hands-on tutorials in a clinical setting. An emphasis is put on **practical knowledge and skills** as well as sound knowledge of anatomy and physiology of the superficial structures of the face.

Our mission is to base all our teachings on evidence-based applications, safe practices and methodical guidelines to ensure an ethical and accurate representation of the aesthetic medical specialty.

Established under an innovative learning and teaching format, VISAGE will provide medical practitioners with maximum exposure to the scientific, clinical and industry information necessary to introduce non-invasive aesthetic procedures in their practice.

*We look forward to welcoming you to VISAGE 2017.
Yours faithfully,
The Scientific and Organizing Committee*

WHY ATTEND "VISAGE"?

- Gain high quality training
- Attend various modules classes over two days
- Partake in anatomy laboratory and hands-on sessions*
- Receive a University Certificate of Higher Education in anatomy and injections techniques applied to the aesthetic medicine of the face*
- Receive a Certificate of participation delivered by an accreditation institution

*Reserved only for candidates registered to Visage Full Academic Pass

WHO SHOULD ATTEND "VISAGE"?

The program content was developed specifically for medical doctors and practitioners who wish to understand the science, research and skills underlying the aesthetic medical specialty. Over 450 medical practitioners of various specialties are expected including dermatologist, plastic surgeon, aesthetic physician and others.

- The 2-day VISAGE theory part is open to all practitioners dealing with or interested in aesthetic treatment of the face (AMEC & VISAGE FULL PASS).
- The Full Academic program (theory and practical parts with anatomy dissection sessions and hands-on injection workshops) are reserved only for «Fully licensed Medical Doctors» and «Physicians in course of internship». Upon registration, a justification of qualification will be requested.

REQUIREMENTS FOR OBTAINING THE UNIVERSITY CERTIFICATE

The eligible candidates* must attend:

- 6 «Essential» workshops (EWS1 to EWS6)
- 1 Anatomy session
- 1 Hands-on session
- And pass the examination taken at the end of each obligatory workshop & session

*Reserved only for candidates registered to Visage Full Academic Pass

Note: University certificate will be delivered only after at the end of the academic year (or around 4-6 months after the result announcement).

"VISAGE" PROGRAM OBJECTIVES

The VISAGE program is constructed to ensure that the participants will:

- Have a thorough understanding of facial anatomy
- Understand the volumetric changes with facial aging, including skeletal, muscular, dermal and subcutaneous tissue changes and how these changes affect the appearance for both genders and all cultures
- Understand facial revolumizing to achieve a natural and youthful appearance
- Understand the pharmacology of various Botulinum Toxins
- Understand the properties of the various facial fillers including autologous fat, cell augmented fat, the various collagens, the various hyaluronans, poly-L-Lactic acid, calcium hydroxyl appetite, and silicone.
- Learn how to choose appropriate fillers for individual aesthetic corrections
- Learn how to perform PRP treatments
- Learn the "Best Practice" injection techniques, products, and volumes for aesthetic correction of global volume loss, temporal hollows, brows, tear troughs, cheeks, nasolabial folds, lips, jowls, pre-jowl depressions, jaw lines, and nasal deformities
- Review the potential adverse events associated with aesthetic use of both botulinum toxins and dermal fillers and effective methods to avoid and treat these complications
- Participate in an interactive session with leading experts on facial treatment with injectables for aesthetic enhancement
- Be proficient in conducting an aesthetic consultation with proven strategies especially for patients seeking for treatment with injectables (understanding patient expectations, predicting clinical outcomes, and effective patient communication on risks and benefits).
